LEAVING MONTREAL.

STORMY WEATHER.

A Large Assemblage.

ADDRESS BY THE INDIANS.

THANKS TO MONTREAL.

Off with Cheers.

MONTREAL, 2nd Dec.

The Governor General and Princess Louise

left their quarters at 10 o'clock this morning

for Ottawa, by the Grand Trunk. Al-

though the weather was extremely inclement,

there being a constant down of rain, a

large assemblage of ladies and gentlemen was

at the Bonaventure Station to see them off.

On their arrival at the depot they were

received with military honors, from a guard

of honor of the 10th Royal Fusiliers, and the

band striking up the National Anthem.

Their Excellencies having taken their places

on the cars, the chief of the 10th Royal Fusiliers

from Chatham was presented an address,

which was read by Chief Joseph in the native

tongue and subsequently in English by Mr.

Fletcher, the school master. The address was

expressive of the loyalty and devotion of the

tribe to the Queen, and congratulated the

Marquis and his royal consort on their arrival

in the Dominion. His Excellency briefly re-

plied in an extemporaneous address, in which

he said the interests of the natives would

always have his constant care.

He said, he said, to learn that they had taken

the cultivation of the land and were prosper-

ing and happy.

The train began to move, and the

Marquis and his consort were seen waving

their hands to the throngs of people who

were gathered on the banks of the river.

THE REASON WHY

WE can sell the cheapest and best Clothing in the city, it is because we manufacture our own. We do our own cutting; we have our goods all made on the premises;

we buy our furs for cash.

If you want a good suit, well made, for less money than you pay in other Stores, the **ONTARIO CLOTHING HOUSE** is the place. We have just completed a lot of Pea Jackets, all wool, at \$1.00. See them before they are all gone! Also Diagonal suits very cheap. We don't pretend to sell rubbish. Good Goods and low price, is what we intend to build our business up with.

BELLEVILLE, MONDAY, DEC. 9.

THE FERRY.

The keeping up constantly, at all seasons, of unbroken communication with the County of Prince Edward is a matter the importance of which every resident of this city—every business man growing—will readily admit. The trade done at Belleville is large and steadily growing, and the loss of any portion of it ought to be provided against by legitimate means, whilst the communication ought to be kept steadily in view. The farmers of the surrounding and adjacent townships have learned by experience that Belleville is the most profitable place at which to dispose of their surplus products and to make their purchases, as a ready sale of their wares at the highest prices can always be had in this, the most largely populated place within many miles, whilst the keen competition in business amongst our merchants and storekeepers ensures that all articles which are steadily purchased shall be reasonable in price. Thus the Prince Edward people who trade here have the double advantage of selling in the dearest and buying in the cheapest market which is accessible to them, and therefore there is nothing to wonder at in the fact that greater numbers of them come to this city every year. But there is one great drawback to this mutually profitable business, and that is the fact that usually, for from a week to ten days in the early part of the winter and for about the same time in the spring, when the ice has been formed on the bay and when it is about to break up, the steam ferry boat is unable to perform its service, and the business is brought to a standstill, and the numerous farmers are deterred from coming to town and great injury is done to the business of this city, as the producers cannot sell and buy whenever, seek other places to do so when shut out from Belleville. So greatly has this inconvenience been felt, and so serious has the drawback become spoken of here considered, that in order to do away with it the project of building a bridge across the bay from the Ferry Point to the Ferry Point, at an estimated cost of \$120,000, has found many advocates on both sides of the water, and a number of wealthy residents of Amherstburg have at different times declared themselves ready to subscribe very liberally from their own means to aid the building of a bridge.

Were the finances of the city in a condition to warrant the expenditure necessary for the construction of a bridge, we should unhesitatingly support such a project, but unfortunately the financial position will not warrant such an undertaking at the present. Therefore, as the necessities of the case can be met by the placing of a ferry steamer to battle with the ice—a boat which can keep a passage open when the ice first forms, until it becomes strong enough to break teams with safety, and which can break up the ice in the spring when it becomes unsafe for horses—on the ferry service at Belleville, we are content to advocate the latter project. Such a steamer would be required to be larger and more powerful than the *Prince Edward*, and being fast on the bottom would draw less water and so probably be able to run from the landing at the foot of Dundas Street. That the project is a feasible one we have not the slightest doubt, and we also believe that the present lease of the ferry would be to his part towards securing its consummation. It is incumbent upon the City Council to take the matter up now, as the necessities of the case are more sensibly felt at present than they will be again until the breaking up of the ice in the spring. And besides, should it be determined to build a steamer of the class indicated, and of wood, the work could be done here during the winter.

We trust that no time will be lost in the matter, as the *Prince Edward* will be completed next year, and if a number of those residents of Prince Edward who at present trade in Belleville are driven from our market by insufficient ferry accommodation, and avail themselves of the opportunity to seek other markets, the loss to the trade of the city will be directly chargeable to the lack of enterprise of its citizens.

These are but the outlines of the scheme. The details can be arranged by the Council when they enter upon it.

An Incident.—The *Montreal Star* says:—"An incident of the Vice-regal journey was the question by an English correspondent, whether he could get the Commissioner of the West of Toronto, as he 'wanted to do the country, you know.' He was told there were plenty of hotels out there that would suit him, if he could only get one large enough to hold him. The informant might have added that he could get up a bear hunt for him on the Champ de Mars."

East Toronto.

The contest for the seat in the Ontario Legislature for East Toronto, which was rendered vacant by the appointment of the Hon. M. C. Cameron, its former occupant, to a judicial position, is being conducted with much spirit. The Conservative candidate is the Hon. Alexander Morris, formerly a member of the Dominion Cabinet, and more lately Lieutenant-Governor of Manitoba; and the candidate of the Grit party is Mr. John Leys, a Toronto barrister. As to the respective merits of the candidates, it may be said that Mr. Morris has had many years' experience in public life, and he is a man whose ability has never been questioned. A fluent, graceful speaker, an administrator of undeniable capacity, he is just the stamp of man required in our Provincial Parliament. Mr. Leys is, on the contrary, new to public life, and even his friends have but little to say on behalf of his fitness for the position which he seeks, as compared with his opponent. Comparing the qualifications of the candidates, even leaving politics out of the question altogether, the electors can scarcely have any trouble in coming to a decision.

The only objection raised against Mr. Morris seems to be that he is not a resident of the division. This is only an electioneering cry, and comes with very bad grace from Toronto, a number of the residents of which city represent other constituencies, and such being the case it would be nothing more than just that Toronto should elect an outsider. He even this petty objectionary cannot have much effect, as the Conservative candidate will shortly take up his residence in that city, whether elected or not.

The campaign on behalf of the Conservatives was commenced very auspiciously on Friday evening, when a registration meeting, presided over by ex-Mayor Medcalf and attended by an immense audience, numbering amongst it many of the leading men of the party, was held. Mr. Morris, who was received with enthusiasm, made an able and telling address, and of those who spoke were Messrs. W. H. Scott, of Peterboro, M. P. P., and A. W. Lander, M. P. P., whose presence showed that the Conservatives are counting the supposed journey of those gentlemen regarding Mr. Morris' possible elevation to the leadership of the party as utterly without foundation. Parties in the constituency are pretty equally divided.

The *Globe* is of opinion that the issue of this contest will be accepted all over the Province as indication of the result of the general election, therefore we trust that the Conservatives of East Toronto will not be drawn from their party allegiance by the delay, and that they will roll up a majority for their candidate in excess, even, of the 270 recorded for Mr. Cameron in 1875.

The Election Petition.—The *Kingston Daily News* says:—"We are informed that the point raised by Mr. Thomas Hodgins, Q.C., that the Ontario courts have no right to try Dominion elections cases, has been considered so positively and so firmly by the Supreme Court for decision. In that case the Kingston election petition will not be disposed of until probably next June."

FRAGILE COAST PAPERS.—Some papers are now going around the country trying to sell to business men neatly printed forms in imitation of Division Court summonses for use in collecting accounts. These blank forms have been brought to the notice of several judges in the west, who have pronounced very emphatically against their use. The *Canadian of Goodby*, is reported to have said that the use of them would be felony. The blanks are got up with a view to deceive those to whom they are sent. The typographical appearance, and, to the way, the phrasing, convey an impression that the document has issued direct from the Division Court. The illegality, we believe, consists in making men think they have been served with legal process of some kind. Business men will therefore require to be careful in the use of them.

DEATH OF DR. MEILLER.—The *Montreal Star* records the death of Dr. J. B. Meiller, the first Superintendent of Education for the Province of Quebec, who died at his residence, 1815 and 1816, on the 6th of the age of eighty-three years. He was born in St. Laurent, was educated at the Montreal College, and took his degree as Doctor of Medicine at the University of Middleborough, Vt. For upwards of twenty years he was actively engaged in the cause of education, and published in 1876 a very valuable work entitled "Memoir de l'Education du Bas Canada," being a history of the principal facts relating to the education of the Province of Quebec. Dr. Meiller was a member in the old Parliament of Canada, and published a number of very valuable works on a variety of topics.

RAILWAY AMALGAMATION.—The *Montreal Star* of the 6th inst. publishes long article on the subject of amalgamation between the Grand Trunk and Wabash R.R. Company, by which it is expected all freight from the West may be diverted to Montreal, to the exclusion of New York and Baltimore, and thus thwart all Vanderbilt's efforts to control traffic from the West. The Wabash Road will compete with the Erie, the New York Central, the Great Western, and the Canada Southern for through traffic. Under the management of Mr. Garrison, who is also President of the Missouri and Pacific Railway, running from St. Louis and Kansas City, and two of whose associates are directors of the St. Louis, Kansas City and Northern Road, the Wabash Company will not alone fight the Chicago and Alton Road, but building a competing line to Kansas City, and thus cutting the throat of the line from Chicago and get possession of the main line of the plan to build the Chicago, Burlington, and Quincy Road. The Illinois Central will be deprived of its St. Louis connection, and the Missouri and Pacific R.R. will have to do its Missouri traffic by a much longer route than at present.

THE CANADIAN LOAN.—A cable despatch says:—"The new four per cent. Canadian loan of \$5,000,000 was tendered for yesterday. Of this sum \$2,019,000 were allotted at an average of \$96 1/2 c. bid."

APPOINTMENTS.—The *Canadian Gazette* contains the following appointments:—Lieut.-Col. J. Stoughton Denison, Surveyor-General of Dominion Lands, to be Deputy of the Minister of the Interior, vice William Budge; Lindsay Russell, Assistant Surveyor-General, to be Surveyor-General of Dominion Lands, vice Lieut.-Col. J. Stoughton Denison. Arthur Banister and Thomas R. Melrose are gazetted as members of Parliament from Victoria and New Westminster respectively.

BRITISH BANK FAILURES.—A cable despatch says:—"The directors of the West of England and South Wales District Bank issued a circular to-day, announcing the suspension of the bank, owing to a drain upon its deposits, caused by the persistent and often unjustifiable adverse rumors which have been circulated for weeks past. They say the books show that the bank is solvent. The directors hope to reconstruct the bank. The West of England and South Wales District Bank had forty-two branches. Its liabilities are \$17,500,000, and the assets are stated at the same amount, but as they consist of local bills not negotiable in London, the Bank of England has refused to advance upon them. The run upon the bank has been so persistent that the cash hand is estimated at only \$1,500,000. The shareholders number 2,900, and their liability is unlimited."

THE RHODOPUS REPORT.—The alleged sufferings of the Christians in Rhodope were made the ostensible reason for the interference of Russia with the affairs of Turkey. But the Rhodope Report shows that the Mussulmans have been treated infamously. The inquiry was conducted by a commission in which England, France, Germany, Austria, Italy, Prussia, and Turkey were represented. According to the report, signed by the English, French, Italian, and Turkish commissioners, the inhabitants of the Rhodope population has suffered most outrageously. At Harmani 2,000 children were drowned. A witness, named Abdullah, had seen 83 persons decapitated in one village. At Selir 16 of the inhabitants were murdered. At Sannakoff the young women were carried off, and their heads cut off; some were decapitated in the presence of their mothers; little children were thrown up and smothered as they lay. We cannot, in the space of an article, give any idea of this fearful record of savagery. We never yet read anything so horrible, yet the history of war abounds in horrors.

THE NILE INUNDATION.—The Nile inundation proves to have been more serious than at first reported. The damage done is estimated at over \$5,000,000, and there has been considerable loss of life. In one place 210 feet of the dykes were carried away, and notwithstanding the critical nature of the disaster three days passed before anything was done to remedy it. At last one of the Zaches, at the head of a great number of laborers, set to work and was occupied for eight days in repairing a third of the breach. Through the gap that rent the water still poured in great volume, spreading destruction around. Many of the villages were partially swept away, and a great deal of the cotton crop was ruined. Painful stories are related of the sufferings of the natives, who, driven from their homes, had to swim for their lives. In one case, cited by a correspondent of the *Standard* (London), an Arab tried to save himself by clinging to a buffalo, which managed to swim safely to land, where it was found some hours after the animal had perished, the man still clinging to the animal's tail, but quite dead. The infelix bodies of a father and child, locked in each other's arms, were floated on to the shore near the Zaches. In some localities the water, three weeks ago, was still six feet deep over the fields, and the Town of Tannoushi, which stands on a vast plain near the river, was an island.

To the Electors of KETCHESON WARD.

GENTLEMEN.—Having been solicited by a large number of the ratepayers of the above mentioned Ward to offer myself as a candidate for Alderman for the year 1879, I take pleasure in responding to their request. THE REASON WHY

WE can sell the cheapest and best Clothing in the city, because we manufacture our own. We do our own cutting; we have our goods all made on the premises; we buy our goods for cash.

If you want a good suit, well made, for less money than you pay in other stores, the Ontario Clothing House is the place. We have just completed a lot of *Free* jackets, all wool, at \$2.00. See them before they are all gone; also *Diogenes* suits very cheap. We don't pretend to sell rubbish. Good goods and low price, is what we intend to build our business up with.

Strayed out of His Latitude.

(From the Monetary Times.)

Strangers coming to North America have sometimes suffered from not taking into account the danger of exposure to a climate more severe than that which they have been accustomed to, and the same neglect has sometimes proved fatal even to natives.

The celebrated sportsman fell a victim to this want of precaution, when on a visit to Boston, Mass., with the result that his leg, turning four times in Mount Auburn.

A young lady, in Toronto, a couple of winters ago, thinly dressed for an evening party, took a chill at her own door and in two hours was a corpse.

In spite of the notoriety of such facts as these, the ladies of Canada have been incoherently asked to expose themselves to a little danger in order to save themselves from a little danger.

The order, signed by Col. Little, required that ladies should appear at the reception at Montreal, in low-necked dresses; it was afterwards so modified as to admit dresses cut square in the front, provided the waists were such as would not expose the bosoms.

BELLEVILLE, THURSDAY, DEC. 12.

City and Vicinity.

ELECTION EXPENSES.—Mr. Brown's expenses in the West Hastings election were \$248.11.

HIGH SCHOOL.—Examinations—Intermediate and Second Class, Monday, 16th; Entrance, Tuesday, 17th inst.

LADY DUE.—The vessel laid up at Oswego for the winter number 48. They include 12 tops, 33 schooners, 1 ship, 1 scow, and 1 brigantine.

DRIVING WITHOUT BELLS.—This dangerous practice has not been altogether discontinued, and the police are advised to be on the look-out for offenders of this class.

STAY CATTLE.—Farmers and others, who detain stay cattle ten days without notice, by making themselves criminally liable, at least it is not unusual in most instances that notice is not given for several weeks or months.

ADVERTISEMENTS FOR THE ALMANAC.—Those who have contracted for advertisements in the INTELLIGENCER FAMILY ALMANAC, are requested to send them in at once to the office.

NORTH HASTINGS RAILWAY.—We understand that arrangements for the placing on this railway of a daily train to be run between Belleville and Madoc are now being perfected.

A LABOR CHOP.—There was a heavy crop of drunkards gathered by the police last night, four men having been placed in the cells on a charge of drunkenness and disorderly conduct, and one on a charge of drunkenness only.

RUN OFF.—The train which was on its way from Madoc last night was stopped at Smithville by the engine running off the track near that place. Nobody was injured. A number of passengers who were on the train were brought to some inconvenience.

RAILWAY INSPECTION.—Mr. Melgworth, Government engineer, who has been deputized by the Ontario Government to inspect the Belleville and North Hastings Railway, was expected to arrive last night, but did not come. He will reach here to-night.

OPERA HOUSE.—The Foy Sisters, who with their company of mirth-makers acquired a good reputation as skilful and pleasing entertainers on a former visit here, will make their reappearance in the Opera House to-morrow night. They are sure of a good reception.

THE FERRY.—The ice on the bay having broken up by the fall of yesterday morning, the ferry steamer was with considerable difficulty got out of her winter quarters, and resumed her trips. Capt. Jelliet is entitled to credit for his efforts, but with a properly constructed ferry steamer, the service would not have been interrupted.

THE MARKET.—The frost of last night having hardened the surface of the roads materially, and the sleighing being now excellent, there was an unusually large amount of business on the market this morning. The supply of poultry, butter, eggs, meats and vegetables was nearly up to the average of an ordinary Saturday, whilst a considerable quantity of grain, hay and wood were delivered.

MAIDEN CITY LODGE, "PRINCE OF WALES."—At the annual meeting of the above Lodge the following officers were elected: Chas. A. Pettit, M. M.; Geo. R. Warham, Dep. M.; John Coon, Chap.; Wm. Fory, Secretary; Sam'l Stocker, Treasurer; Sam'l Fitzsimons, D. of C.; A. C. Thomas, I. T.; Wm. Beale, O. T. Committee—John Urquhart, R. B. Boyle, Jas. Tennant, John McKnight, Joseph Hamilton.

CLEANING THE SIDEWALKS.—Whilst a considerable majority of the residents of the city comply with the provisions of the municipal by-law and clear the snow from the sidewalks in front of their premises and vacant lots, there are others who do not fulfil this duty satisfactorily. A gentleman who resides on Fiancée Street complains that the drift on the sidewalk on that street, between Campbell and Hotel Streets, were not cleared away yesterday, in consequence of which, when coming down the street last night, he fell in a snow bank. The police ought to look after those who are delinquent in this regard.

HONEYEATERS.—The following recommendations were given by the President of the Local Agricultural Society in this Province, and are, to say the least, humane:—1. Clipping. The clipping of hares is considered to be, at least, imprudent, and by this society inhuman; owners are respectfully urged to allow the animals to retain the covering which nature has provided. 2. Check rines. Work hares, if at all, should be checked very lightly; they can thus pull to greater advantage, protect their eyes from rain or snow, and are less liable to stumble or injure themselves. It will be noticed that the city railway companies have largely abandoned the use of check rines. 3. Bite. It is prudent to mark with the letter "B" before placing them in the hares' mouths.

County Court and General Sessions of the Peace.

WOOD ON PRISON.—Verdict for plaintiff for \$200, certificate for full costs.

John Walsh, charged for Larceny—stealing a bag of flour—pleaded guilty.

Latest From Manitoba.

WINNIPEG, MAN., DEC. 11.

The train now running regularly on the Pembina Branch, and the time to Toronto has been reduced to three days.

Another silver mine has been reopened at Thunder Bay.

The Provincial nominations were held here to-day. Mr. Louchard, a farmer, opposed Mr. Scott in the city.

AMERICAN DISPATCHES.

EVING, 11, Dec. 12.—Exterior Bureau.

Washington, Dec. 12.—Senator Sherman himself yesterday, while temporarily in the city of his wife two years ago.

The Times says, indications are that the second electoral bill will receive the support of several Democratic Senators and pass with, perhaps, some amendments.

The Herald says that the New York and Philadelphia envelope manufacturers request the Postmaster General to adopt higher rates for stamped envelopes, at the present prices make a grievance manifestly against private persons cannot compete.

Spain's speech fell rather coldly even on a great many Republicans.

The passage of the bill to regulate interstate commerce by the Senate, is doubtful, but as it relates to the important question of rates of freight and passenger on railroads, it is bound to develop considerable debate.

The Sun says that it is said by persons enjoying confidential relations with President Hayes, that either Mr. Matthews or Mr. Rockwood Hear, will be the new Attorney General.

AFTERNOON DISPATCHES.

OSWEGO, N. Y., Dec. 12.—The barometer on Tuesday night indicated 29.71, the lowest ever known here; the total rain fall is one inch and a half inches.

Four and a half inches. Two converts on the Delaware, Lackawanna & Western Railroad were washed out. Nearly 200 telegraph poles were blown down between here and Syracuse.

Despatches are sent to Syracuse by rail.

Mechanics Falls, Me., Dec. 12.—Rumford Falls & Buckfield Railway has six heavy washouts. Trains will not resume for a week.

CLARKSBURG, Dec. 12.—Arrived, the State of Louisiana.

LONDON, Dec. 12.—The report that Germany had a proposal that England should assume the protectorate over Constantinople as the price for permitting the unification of Bulgaria and Roumania is entirely improbable.

It is also at variance with an official note from St. Petersburg stating that the re-construction of the Turkish Ministry was favorable to the progress of the negotiations for a definitive treaty, and that Russia only desires full and complete peace in conformity with the Treaty of Berlin.

EMPEROR ALEXANDER, in a speech at Moscow recently, declared his hope for a speedy signature of the definitive treaty of peace with Turkey.

GORTSCHAKOFF arrived at St. Petersburg last night.

CONSTANTINOPLE, Dec. 12.—The American Consul has made three applications for the release of Romer. He was informed that Romer was a party to a conspiracy in 1890, in Syria, but as his arrest was contrary to the treaty obligations, the Visier ordered Romer to be delivered to the Consul for trial. The Minister of Police requested the release of the prisoner until today, the Consul protested, and will apply again to-day, for the custody of Romer.

ROME, Dec. 12.—It is now believed there will be dissolution of Parliament and business Ministry in interim.

LONDON, Dec. 12.—Edward O. Kelly, the last Fenian prisoner now confined in Ireland, is to be released before Christmas. His friends are endeavoring to obtain permission for him to reside in Great Britain.

PARIS, Dec. 12.—Guastave Rowland, the French statesman, is dead.

ROME, Dec. 12.—King Humbert has summoned the Senate, Senate Dispense to advise with him concerning the new Ministry.

LAWRENCE, Dec. 12.—The water of the Merrimack gained nearly a half a point at the great fresh in the spring of '90, and is still rising. 9 feet of water is now passing over the Essex Company's dam. All the mills in the city, except a portion of the Everett New Pacific, were obliged to stop. The water is higher in the Merrimack and Concord rivers than since 1870. The Middlesex mills are closed; the Merrimack mills are down at noon, and all other manufacturing have partially suspended.

NEW YORK, Dec. 12.—Up to this morning no clue was obtained of the Rev. Jan. H. Way of New Brunswick, who disappeared on Saturday. This morning an officer found a memorandum book which undoubtedly belongs to Way in a cave in the Central Park. This leads to the opinion that the man is hidden outside in the park. The police are making a search.

PARIS, Dec. 12.—The appointment of A. Bismarck as Ambassador to Spain is announced officially.

PROVIDENCE, R. I., Dec. 12.—A two year old son of Frank Desfield was left alone in a room to-day, and set his clothes alight with matches, and perished. The house was fired but extinguished.

NEW YORK, Dec. 12.—The total imports of grain during November are a million and a half bushels, and set the record for the month and the total exports about a million less. The balance of trade for the whole country have largely abandoned the use of check rines. 3. Bite. It is prudent to mark with the letter "B" before placing them in the hares' mouths.

Export of Grain.

We are indebted to Mr. Alexander Watterson, Harbour Master, for his courtesy in furnishing the following comparative statement of the amount of grain exported during the years named from Bellville harbour:

Barley.	Rye.	Potat.	Wt's Oats.	Total.
1874, 124,443	60,046	11,293	381	1,96,773
1875, 211,443	60,046	11,293	381	2,90,115
1876, 190,949	61,216	28,891	1,779	282,815
1877, 211,443	60,046	11,293	381	2,90,115
1878, 237,137	105,166	36,518		422,361

In addition to the above, several lots have been shipped by rail this season. As the total exports from the Port of Bellville amounted to 501,243 bushels, it appears that the quantity of grain shipped from the port was 168,982 bushels.

TORONTO MUNICIPAL AFFAIRS.—The Toronto Citizens Committee on City affairs have published a lengthy report. Their recommendations are that the street improvement of the city should come to be a burden on the treasury, and the cost should be defrayed by assessment on property benefited; that the Water Works should be administered as an independent branch of city government, and made financially self-sustaining. That six million dollars should be borrowed to take up the present debt which is not more than five millions; that the city should not be permitted to borrow more than six millions until the assessment of property exceeds its present amount, and then only to the extent of the increase; that the sinking fund should not exceed one percent. per annum on the amount issued.

claim a balance. Defendant says his wife did not give plaintiff's agent permission to take goods, and claims that the goods and wagon taken were not his property, but that the amount of the account, and claims that the plaintiff are indebted to him. The case occupied considerable time, owing to the conflicting testimony as to the value of the goods and wagon taken by the agent. Verdict for debt. Douglass & Falkner in plaintiff's; Clute for debt.

THE GOVERNMENT'S SUSTAINED.—The debate in the English House of Commons on the Afghan war question was concluded last night. Mr. Whitbread's motion censuring the Government was rejected by a vote of 328 to 227, giving the Government a majority of 101.

ward recently destroyed by fire. Three hundred more copies of the book were burned in the flames. The loss will reach \$4,000, on which there is an insurance of \$500. It is supposed to have been the work of an incense-burner.

—A coal mine has been discovered a mile from Bridgewater, Laurensburg County, Nova Scotia. The indications are said to be good. Parties have applied for the necessary right to search. There is also a copper mine being worked at East Dalhousie, in the same county, under the superintendence of an American mining engineer, with good results.

BUSINESS PROSPECTS.—The New York *Herald*, after speaking in very positive and flattering terms of the fall business prospects of that city, says: "Now, what is

FAULT IN THE CELLAR.—The great abundance of apples and consequent low prices at the time of harvest, is very likely to lead to neglect in caring for them, and it would not be surprising to find good fruit in some localities, premature ripening, and this indicates that the fruit will keep badly. This calls for unusual care in selecting that which will keep best, and in the treatment during the winter. The main point to be looked after, is the temperature, which should be kept as low as possible without freezing the fruit. The advantage in having detached fruit cellar, or one not under the dwelling is that ventilation is not necessary. In the home cellar, the air must be changed, and this must be carried off, or the family will suffer. In the special cellar, this may accumulate, and by excluding the air, greatly pro-

The Death of the Princess Alice.

General sympathy for our beloved Queen

was manifested everywhere throughout the

Dominion when the news was flashed across

the land on Saturday last, that the beloved child,

the Princess Alice, was dead. And like the

Princess Alice, Canada has been sympathizing

in her sad bereavement.

The Princess Alice was born at High-

cliff, near the town of Epsom, Surrey, Eng-

land, on the 25th of June, 1843. Her father was

Prince Albert, Duke of Saxe-Coburg and

Gotha, and her mother was the Princess

Victoria, Queen of Great Britain. She was

the second daughter of the late Prince

of Wales, and the third child of Her

Royal Highness the Prince Consort. She

The "Dead End."

The "Dead End" is a new

feature of the Daily

Intelligencer.

As you have commented on my

resignation of the Chairmanship of the

Finance Committee, I feel free to

state the facts which led me to that

step. The amount estimated and

provided for the purpose of this

special expenditure this year was

\$12,000. I repeatedly warned the

Council that the amount had been

estimated at \$12,000. This was

allowing Mr. Sutherland's tender

of \$10,000. It was at that meeting

that all Street expenditure was

to be stopped, except for trifling

repairs which might be

absolutely necessary.

At the last Council meeting held on

the 24th of December, a report was

presented from the Public Works

Committee. I ask close

attention to the following extract

from the report: "The Committee

recommend that the City

Engineers be authorized to purchase

BELLEVILLE, TUESDAY, DEC. 17.
 The Grit Press and Minister of
 Customs.

The Grit Press of Ontario and Grit speakers
 from Ottawa are paying particular at-
 tention to the movements and ex-
 pressions of the Minister of Customs. Not long since
 one of those truth loving gentlemen tele-
 graphed from Ottawa to the Quebec Tele-
 graph that the Orange Young Men
 marched to church on the 14th of Novem-
 ber with the Hon. Mr. Bowell, Minister of
 Customs, at their head. The Grit who sent
 this message knew he was telling an un-
 truth, for Mr. Bowell was upon that day
 in North Hastings looking after his re-
 ceived. Shortly after this the Globe con-
 tained and circulated a rumor that Mayor
 Baendry of Montreal was to be knighted at
 the suggestion and upon the recom-
 mendation of the Hon. Mackenzie Bowell, ex-
 Grand Master.

We need scarcely say that both these
 parties knew they were giving circulation to
 falsehoods. Their object was transparent,
 the one story was sent to Quebec and cir-
 culated among the Roman Catholics, and
 the other to Toronto and circulated among
 the Protestants of Ontario, who were known
 to hold strong feelings against the Mayor
 of Montreal for his conduct on the 12th of
 July last. Next followed the story that
 the Hon. John O'Connor had appointed the
 brother of poor Hackett as his private
 Secretary, and that the Hon. Mackenzie
 Bowell was to take into his confidence, as
 private Secretary, Mr. Tobin, a well known
 Catholic. Why was this tale of lying
 adopted? Simply to try to cause the pas-
 sions of the Catholics against Mr. O'Connor
 and the Orangemen against Mr. Bowell.
 These rumors having been shown to be
 false, we have another tale to tell. Mr.
 Bowell has appointed his son his "private
 Secretary, and also given him a clerkship
 in one of the departments," which
 "involves the afflicted youth in the
 toil of drawing two salaries." To which
 tale, which the Hamilton Times
 adds: "Mr. Mackenzie Bowell, Minister
 of Customs, has an unquestionable right
 to appoint his own son as his private sec-
 retary, though the step is without a pre-
 cedent in this country, at least about a
 recent one. But it should be remem-
 bered that if Mr. Bowell, as is permitted
 to increase Mr. Bowell's legitimate
 and stipulated salary of \$600 per annum
 by appointing him to a clerkship, he
 "he will never bill, but which carries with
 it a salary of \$800 to \$1,000, the organs
 can no longer reasonably attack Mr.
 Buckingham who stipend as private
 secretary was similarly made up." This
 is the practice in the Department of
 "believe, and it is time it should be stop-
 ped." No doubt the practice should be
 stopped, but that it is not the recipients
 of such favors. The Times is wrong,
 his own friends and those who preceded
 them did precisely the same thing, that is
 appointed their own sons as private secre-
 taries. For instance we have it upon the
 best authority that Mr. Coffin
 had his son as a private sec-
 retary to assist him in doing—well, we
 should suppose nothing for the
 late Cabinet tried to abolish the office on
 the ground of its being a mere sinecure,
 and others of the late Cabinet did the
 same thing, and in addition to making
 the appointments gave them other bene-
 fits which secured their salaries, as for in-
 stance Mr. Buckingham, who was contrary
 to the Civil Service Act, made a first class
 Clerk, which carried with it about a year
 in addition to the \$600, as private Sec-
 retary to Mr. Mackenzie, but this was all right
 and proper in a Grit Premier, and if the
 present Minister of Customs, one of the
 hardest worked members of the Cabinet,
 with some thousands of Ports to look after,
 appoints a private Secretary, and that
 secretary is his son, then it is an exhibition
 of "impartiality." Perhaps these Grits
 would have been better suited had he
 selected a Grit, so that the secrets of his
 office would have been common property.
 The only portion of these stories that is
 true is the one that the Grits are doing
 the same thing, but that is not the point.
 So that all the assumed indignation of the
 Grits is base corruption and falsehood; even
 if he had done so, he would have been
 following the example set him by his pre-
 decessors.

WEST DUNELM.—The Ottawa Free
 Press says:—"Mr. Burk has formally
 consented to resign his seat in West Dun-
 elm, and a Reform Convention is called to
 meet on Wednesday next, for the purpose
 of nominating a candidate to replace him.
 Riding in the Local Assembly. It is un-
 derstood that the whole position will be
 discussed, and the probability is that
 Mr. Burk will be elected as the Reform
 candidate for the Ontario House, and that
 Mr. Blake will run for the Congress.

—A WONDERFUL CONTOUR.—A Toronto
 report says—Chas. H. Warren, of Schuyler-
 ville, N. Y., a contourist, gave an exhibition
 at the General Hospital before the leading
 physicians of the city and about a hundred
 medical students of his wonderful control
 of his limbs and internal arrangements of his
 body, which he seems to have power to dis-
 place and move about at will. For instance,
 in a second warning Mr. Warren will turn

WONDERFUL DISCOVERY.

EMPRESS RELIEF. THE FRIEND OF MANKIND.

AN INTERNAL AND EXTERNAL REMEDY.
BALM FOR EVERY WOUND.
It cures Rheumatism and Neuralgia, and all pain instantly.
It is the only known remedy for Rheumatism on the "American Continent" proved by thousands. As soon as applied, it gives instant ease to the unfortunate sufferer. It rapidly absorbs, penetrates to the source of the pain, and, by its action, brings all "Rheumatic Poisons" circulating in the blood, and expels them from the system through the natural organs.

IT CURES

Toothache, Earache, Headache, Neuralgia, Rheumatism, Sprains, Swellings, Inflammation, Burns, Cuts, Bruises, Pain in Side, Pain in back, Pain in chest, Pain in shoulder, Cough, Croup, Whooping Cough, Cholera, Diarrhoea, Dysentery, Summer complaints, &c., &c.

It will cure the most agonizing Pain Internal or external, in one instant. It is the most powerful of all remedies. It is a trial; the investment is small and well certain. The great secret of its success with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant ease, and can be applied to a wider range of diseases in every day life, with greater success, than any preparation which research, skill, and "Medical Science" has yet produced.

As a proof of its great power over disease, any person, no matter who it may be, Rich or Poor, Old or Young, who is suffering from any of the above named complaints, will call at the Office in Toronto, any day of the week, will get practical proof of the value of the Empress Relief.

Testimonials from all parts of the Dominion are constantly coming to hand, and are so numerous that it is not possible to publish them all. We would be pleased to receive testimonials from all others who use it successfully.

Physicians of the highest reputation recommended it as a most effective "Remedy" for the relief of Pain in cases of Rheumatism, Neuralgia, &c., &c.
"Carry it to your home, and it will prove a blessing to your families and afflicted friends."
Druggists are selling enormous quantities of it wherever introduced.
"Challenge the World to produce its equal."

Price, 25 cents per Bottle.
The Trade supplied through the Wholesale Drug and Patent Medicine House of Montreal, Toronto, Hamilton and London.
SOLD BY ALL DRUGGISTS AND GROCERS.

SEND 25c. to ROWELL & CO. New York for sample of 10 pages containing list of 3000 newspapers, and estimate showing cost of advertising.

Daily Intelligence.

"Consider the Poor."
"Only they would that we should remember the poor, who are the most numerous of the human race, and who are the most deserving of our sympathy and aid."—Bible.

At a time when the charitable are making an effort to help the poor by providing them with food, and when the severity of the winter calls for their earnest workers in the direction, the following letters are very timely and very appreciated.

It is a very sad sight to see a poor man, who is old and infirm, and who has no one to care for him, sitting on the steps of a church, and begging for alms. It is a sight that should make every one of us feel that we have a duty to perform towards the poor.

"Oh! Poverty is a disgraceful thing, and it is a disgraceful thing to see a poor man, who is old and infirm, and who has no one to care for him, sitting on the steps of a church, and begging for alms."—Bible.

It is a very sad sight to see a poor man, who is old and infirm, and who has no one to care for him, sitting on the steps of a church, and begging for alms. It is a sight that should make every one of us feel that we have a duty to perform towards the poor.

"Oh! Poverty is a disgraceful thing, and it is a disgraceful thing to see a poor man, who is old and infirm, and who has no one to care for him, sitting on the steps of a church, and begging for alms."—Bible.

stripped naked, and bound. Then, with a word, she was taken, and all as if dead to the ground. But while life yet lingered a woman of Arawakan race rushed to the prisoner's body, and, with a furious yell, plucked them out of their sockets, and set them in the presence of the infuriated and applauding multitude. Afterwards, while the body of the victim was yet warm, she was dismembered and her entrails were taken out and devoured, the cannibals fighting with each other for their share. Hering was then cut to pieces and divided up among the cannibals present. While indulging in this almost incredible feast, shouts of joyous vengeance were heard on every side. The cannibals revelled in devouring nearly every atom of the body. They washed down the flesh with native intoxicating drinks, and after the carnage was concluded, a triumphant parade of vengeance followed.

BELLEVILLE, THURSDAY, DEC. 19.

City and Vicinity.

STATION.—There is now excellent skating on the river where ice formed since the snow fall, and also on the bay.

REORGANIZED.—The Kingston Mechanical Institute has been reorganized, with an efficient staff of officers.

WOOD.—Large quantities of cordwood are delivered daily in town, and prices have fallen materially. Hardwood is sold yesterday as low as \$2.35 per cord.

CHRISTMAS HOLIDAYS.—The public schools will close for the Christmas holidays to-morrow evening and will be reopened on the 7th of January.

REPORT IN PRINCE EDWARD.—The Reform Association of Prince Edward has a mass meeting at Pictou the 21st for the purpose of selecting a candidate for the Local Legislature.

HOLIDAY GOODS.—Attention is directed to the announcement made by Messrs. A. E. Fish & Co., in our advertising columns. They have a fine stock of holiday goods, and a specially large line of silk handkerchiefs. Read the advertisement.

ILLNESS AMONG COWS.—We are informed that one more of Mr. Owen Wesson's cows, which had been fed with smutty corn, was taken ill but recovered under the treatment of Mr. Newton, V.S. The feed has been changed and no more illness has occurred among the herd.

OPERA HOUSE.—Macallister the wizard will give his first entertainment this evening. The Buffalo Generalist says of him: "Macallister is a most accomplished magician and has no occasion to give away to any professional of the same school. For mastery, dexterity and mystery, his experiments in legemancy cannot be surpassed."

AID FOR THE POOR.—It being customary at this season for those who are charitably inclined to gladden the hearts of the poor and needy by the exercise of their charity, Mr. Ross, Inspector, desires us to say that those who wish to distribute second hand clothing, boots and shoes, and other articles, by calling at his office at the City Hall at any time between now and Christmas, ascertain from him the names of worthy objects of charity, or if it is preferred he will see that their bounty is properly distributed. At the present time the number of persons receiving relief from the corporation is as follows: Widows without families, 19; widows with families, 61 persons; aged men and women, 18; supporting occasional help, 48; total, 146. Number of deaths during the year, 16; 5 orphan children have been left unprotected, for two of whom were sent to the Orphan Home, Kingston, through the influence of the Rev. J. W. Burke, two have been adopted and received into the arms of the home, and the other, an infant, died. This statement of facts may arouse the active sympathy of the benevolent, and we may add that assistance in the way of clothing and provisions is much needed.

REARDED.—The usually quiet neighborhood of the Grand Central Hotel was roused last evening at about half past seven by a shrill cry of "Help!" "Help!" "Police!" issuing from an upper window of the hotel, which had been thrown open, and out of which some women and children were leaning as they uttered piercing cries for help. A couple of policemen were sent to the spot. They entered by the front door, when the cries soon ceased, and the large crowd which had gathered waited patiently until their return to learn what was the cause of the commotion. It is stated that the hotel, which is leased by Mr. Wemp, has been closed for some days, as it was not doing a paying business. The landlord, Mr. Leavens, wishing to get possession of the premises, ejected Mr. Wemp on Monday, but his family kept possession of some of the upper rooms, whilst the landlord held possession of the lower part of the house. On Tuesday night Wemp, who was in possession, was let into the apartment kept possession of by his family, and as Mr. Wemp informed the crowd that gathered outside the hotel, the cries were for protection from the persons who were keeping possession of the lower part of the house for the landlord, and who, as Mr. (Mr. Wemp) said, were trying to break into the rooms which were barricaded. To-day Mr. Wemp and his family are still in a state of siege, they being provided with victuals from Front Street, where, which is sometimes interrupted by interested parties, when the police are called, and under their care the victuals are safely brought to the persons imprisoned in the upper stories. The matter has created not a little excitement. This afternoon the siege was continued with vigor. Whilst a supply of provisions was being hoisted to the garriens the hand of one of the besiegers was reached forth from a window, and administered great excitement, the pall containing the food fell to the sidewalk, spilling its contents. The siege creates much interest in the neighborhood.

Biography of Methuselah.

(By the Fat Contributor.)

What a tremendous boyhood old Methuselah had! He died at the rather advanced age of 900 years, about 900 years more than man's span of life. At that rate, when he was 200 years old he about equaled an ordinary life of 16. He was 40 or 45 before he was brought home a rattle to play with, and he didn't have the usual and other infantile diseases until he was over 100. He was in no sort of a hurry about things, as he had so far to go. We imagine that he was rather a slow child to begin with, as so many people who live to a great age. We can imagine some of the anxiety with which he must have been afflicted, as he was almost a century old when he was brought home. Generations of men lived and passed away while he was going around with his petticoats, and he was almost a century old when he was brought home. His father used to tell him when he was 150, for robbing a neighbor's watch of his mother's.

Young Methuselah was brought in the vicinity of 100 years old when he was sent to school. We can imagine him sitting on the bench, looking at his clock, among the great-grandchildren of people who began life when he died. He was mischievous, of course—all boys are so, and what their age (we experience a mild friskiness ourselves occasionally), and had to be punished for it.

"William Henry Methuselah stood up," says the teacher, catching him in the very act of placing a bent pin in a seat where a schoolmate was about to sit down. "What do you mean by such conduct as this?"

Young Methuselah began to sniffle and wipe his eyes with the corner of his jacket.

"One would think," continues the teacher sternly, "that you won't over 70 or 80 years of age, and you are now a century old. You ought to be ashamed of yourself."

You ought to be ashamed of yourself."

Then Methuselah is condemned, as an explanation, to sit among the girls until recess, and if you think that isn't an agreeable form of punishment you will have to ask someone older than Methuselah.

Whenever a circus came to town, with "children half-price" upon its bills, young Methuselah must have experienced difficulty in making his ticket good. He would stand that he was entitled to a half-price ticket, particularly after he got along towards his 200th year. But he probably did it. Boys are enterprising and persistent when a circus is concerned. And we will bet that Methuselah, in the days of his youth, could account as much from as the next boy, and lay it by for the coming show.

When this youngster got into his teens—say from 200 to 300 years old—he probably did as other young gentlemen of tender age do, went around with the girls. He must have been a little embarrassing to them, after bringing a young lady about a spelling-book to her to correct, and then to discover that she was the great-granddaughter of his father's, but these things were inevitable under the peculiar and exceptional character of the circumstances. They could hardly be otherwise. There is no record to show that any woman lived in his time to an age that would bring him to compare with his. And if there had, there would never have known it. At least, not from her. She wouldn't have known it, and thing over 40 had she lived, but the age of Methuselah. That is the kind of a half-price woman it.

Employing the proportion of 21 to 70 to Methuselah's years, we find that he was a minor until he was 270 years old. If the law regarding minors and the operations of the Mental faculties, banishes activity and motion, enables old people to recover the vigor of youth.

A Boy With a Heart.

A FUNNY STORY.

It was such a funny story! how I wish you could have been there.

For it was all laughing, from the little to the big. I'd really like to tell it, but I don't know how to.

Though it travels to the minds of a very lively lot.

If Sally just began it, then Amelia Jane would have been there.

And Mabel and Susan try their very best. And the infant Zedekiah on his mother's lap would wriggle.

And all a lady to the very merry life.

It was such a funny story, with its cheery song. And Sally always told it with so much dramatic effect.

That the children in the doorway would begin. As if in such a frolic they were anxious to take part.

It was all about a boy, who had in vain searched the post office corridors for the little which a careless hand occasionally drops at the stamp clerk's window. And took his position before a chestnut stand, and eyed the fresh nut a long time before drawing a deep sigh and groaning.

"Oh, with I was rich." The chestnut-trader would reply, and the odor of the roasting chestnuts finally induced the boy to inquire.

"Are chestnuts healthy?" "No, no," the trader was proud of indicating the chestnut. "No, never did I hear of the man who grew a poor boy and got rich by forwarding the old nut with a diamond just to give him a chestnut."

The lad took a turn up and down, secured another strong sniff of the pleasant odor, and then leaned over and whispered.

"If I'll take the chance on the edge of the grave business will take the chance on the chestnut."

Finally thought he would.—Detroit Free Press.

To Consuetudine.

The production of a remedy that may truly be said to be the prospect of the Consuetudine as a good hope of cure in a few cases, and of much prolonging of life in the majority.

"The only remedy worthy of the name, if used, if carefully and faithfully used, may arrest and cure the disease, and is pretty sure to return it and prolong life more than any other medicine."

Yet, this desideratum is fully met in the "Phlegm of Lung" of Dr. J. H. Hambley.

WONDERFUL DISCOVERY.
EMPRESS RELIEF.

THE FRIEND OF MANKIND.
AN INTERNAL AND EXTERNAL REMEDY.
BALM FOR EVERY WOUND.

It cures Rheumatism and Neuralgia, and stills the most violent pains, and is the only known remedy for Rheumatism on the American Continent proved by thousands.

It is rapidly absorbed, penetrating to the very centre of the circulation, neutralizing the morbid humors, circulating in the blood, and expels it from the system through the natural outlets.

IT CURES
Rheumatism, Neuralgia, Headache, Neuritis, Toothache, Sprains, Swellings, Inflammation, Burns, Cuts, Bruises, Pains in Stomach, Pains in Chest, Pain in Shoulder, Coughs, Hoarseness, Whooping Cough, Hiccups, Dyspepsia, Summer Complaints, &c., &c.

It will cure the most agonizing Pain Internal or External, in one hour, and the patient can go to work, and give it a trial: the investment is small and relief certain.

The great secret of its success with all classes is owing to the fact it is safe and harmless, pleasant to take, gives instant relief, and can be applied to a wider range of disease in every day life, with greater success than any preparation which research, skill, and "Medical Science" have ever devised.

"As a proof of its great power over disease, any person, no matter who it may be, Sick, Poor, Old or Young, who is suffering from any of the above painful complaints, will call at the Office in question any day of the week, will get practical proof of the Power of Charge of its great power over pain in one application.

Testimonials from all parts of the world are constantly coming to hand, expressing appreciation to the most grateful for astonishing cures which it has performed, and their reaction supervised. Head Office, 50 Front St. E., Toronto.

BELLVILLE, MONDAY, DEC. 23.

City and Vicinity.

CITY COUNCIL.—The Council will hold a regular meeting this evening.

INLET.—These dangerous ponds are observable on many roofs. Look out for them.

HOLDS THE FORT.—The siege of the Grand Central continues. Mr. Wemp says he holds the fort and will continue to do so.

DRIFTING.—The snow having been rendered light and powdery by the cold of last night, to-day's wind caused a good deal of drifting to take place.

ARRIVAL.—The mail steamer arrived at Halifax at 5:30 p. m. yesterday, consequently the mails will probably reach here by to-morrow morning's train.

AMUSEMENTS.—The storm of Saturday night played havoc with the entertainments announced for that night. Blind Tom had an audience of about fifty persons, whilst Macalister did not show, the attendance being too small.

OPERA HOUSE.—Lanoe's Opera House Company, with Mr. Harry Harvey, will appear to-morrow night and on Christmas night in the Opera House, producing the powerful drama "The Hunchback of Notre Dame." Seats can be secured at Roy's.

RAILWAY INSPECTION.—Mr. McLevor, the Government Inspector, conducted his inspection of the Belleville and North Hastings Railway on Saturday. After considerable drifting by snow, the Inspector and Mr. Rickford took the train west yesterday morning. We have not learned the result of the inspection.

PUBLIC MEETING.—In response to the request of a numerously signed requisition, the Mayor has called a public meeting of the ratepayers, to be held in the City Hall on Thursday evening, 26th inst., for the purpose of hearing the views of the Aldermanic candidates with regard to the financial and general affairs of the city.

EXTENSION.—The Daily Times, published at Moncton, N. B., appears in an enlarged form and is otherwise improved. The Times is one of the spiciest newspapers in the maritime Provinces, always sprightly and new, and its editorials are written with care and ability. We are glad to hear of its success.

HOLIDAY GOODS.—A large amount of money will be invested to-night and to-morrow night in the purchase of Christmas presents, and as it is to the interest of all to buy where the best value can be had, we recommend intending purchasers to consult our advertising columns and deal with those who advertise. Good value, in many cases, can be had from our advertisers.

SNOW STORM.—The snow storm of Saturday evening until about ten o'clock of that night, having lasted about twelve hours, during which time some six inches or thereabouts of snow was added to that already on the ground. There having been but little wind, scarcely any drifting took place, and the sleighing now could scarcely be improved upon. The air this morning was bright and cold, and the prospect of good sleighing during the holidays is excellent.

OPERA HOUSE.—On Thursday and Friday of Christmas week Miss Janette Aistrop and Mr. F. Lawrence give two delightful entertainments to be held in the Opera House. Their "costume recitals" (as they are styled) in a fashionable style (as of England) comprise the most effective series of plays, and give us an opportunity amongst other characters in the programme to see their celebrated rendition of the selection from Macbeth, in which they are, we understand, remarkably strong.

FRUIT GROWERS.—A meeting of fruit growers, to consider their interests in connection with the proposed change in the tariff, was held in Hamilton on Friday last. The meeting was held in the hall of the Commercial Union, and was attended by a large number of growers. THE RIVER.—Beside its advantages, the heavy snow storm of Saturday brought some disadvantages with it. One of these latter was that the snow which fell into the river was borne down by the swift current so rapidly that it was difficult to get a dam. At about half past one on Saturday night the pent-up waters broke the ice on the river, sweeping down as far as Phipps's wharf, where the ice was broken up. The ice then began to fill the river, and the water rose to a level nearly as far up as Coleman's dam. The ice was broken up, and the water rose to a level nearly as far up as Coleman's dam. as the merchants, taught by past experience, had removed their perishable goods beyond the reach of the water. The flood fell fast, and yesterday morning, and the immediate danger is past, but the situation is far from reassuring, as the Mayor is very anxious and distrustful of time.

To the Editor of the Intelligencer.

Sir,—My attention was drawn to an advertisement in your issue of the 21st inst., in which reference is made to me personally, which I have read with some interest. A Bridge vs. the Ferry.

To the Editor of the Intelligencer.

Dear Sir,—The bridge-ferry question is of some importance, it is well that the public be called upon to give their verdict may be able to do so intelligently.

The point I wish to make is in my former communications to decide if "Wealth" is more effectively secured by the ferry than it would, and I now submit the result of being fully convinced that it is in fact being proved incorrect. And I submit for consideration the arguments advanced by you, although made to me, which I have read with some interest.

Your suggestion is, that the Corporation take the ferry into its own hands after the expiration of the present lease, and put a boat on the route at a cost of \$20,000, and use it sufficient to pay running expenses, repairs, and interest on the money advanced.

Now let us see how far such an undertaking may be recommended. The ferry is an investment of about \$5,000 per year, but it is doubtful whether it would amount to fully as much now under corporation management. The yearly expense of running a corporation ferry would be about as follows:—For salaries—master \$800, engineer \$500, wheelman \$400, painter \$300, dock hand \$200, for fuel, oil, painting, repairs, &c. \$1,000, for interest on \$20,000 at 6 per cent \$1,200, for yearly proportion of discount on debentures running year \$200. Here we have an actual yearly outlay of \$4,000 in running the ferry on this scheme, without any certainty that the corporation could at the present rate of high tolls make the receipts exceed this amount.

It is a curious, quite plain fact by this scheme the tolls could not be reduced, and consequently the trade would not be increased as desired. Besides as provision for sinking fund on the \$20,000, could be made from the tolls, it would have to be provided for the sinking fund, to repay the loan, and at the expiration of ten years another \$20,000 would be required to rebuild or replace the boat, and so on every ten years another \$20,000 would be required, and yet, we would have the ferry with all its mishaps and delays! I do not think that such a scheme can command itself to public confidence.

Now for the bridge. I have no doubts the tolls of Prince Edward would be increased fifty per cent by spanning the bay with a good substantial bridge, and therefore by a toll of one-third the present rate, to be levied only during the navigation season, \$2,500 per year could be raised. Of this sum \$200 would be quite sufficient for the expense of attending the "draw," lighting, etc., and \$700 for repairs, leaving a residue of \$1,600. The number of sailing vessels passing through would not be so numerous as to require a tug to be stationed at the bridge. With a favorable breeze vessels could sail through, and in almost any kind of weather could "make" the pier on either side of the "draw" and either "haul" or "heave" through. If the Government ever carry out the project of opening the Murray Canal a tugboat passage might be required at the bridge, but would not the Government provide for this?

As to the ways and means for building the bridge, there is one plan which suggests itself to my mind which may not prove unworkable. It is this: Let a joint stock company be formed, and let the joint stock company take the amount required for the ferry in ten years, that is to say \$40,000; and let Prince Edward take stock in the amount of \$40,000, and private individuals \$20,000 of it, and let the joint stock company call first dividend stock. Let the first dividend stock holders build the bridge and take the charge of it, and let the joint stock company take the tolls at the bridge, and let the joint stock company take the tolls at the bridge, and let the joint stock company take the tolls at the bridge.

Our City finances are not in such a very desirable condition, after all. In fact we are \$200,000 better off than we were ten years ago. The North Hastings Railway has \$125,000, will not be paid. The Grand Junction \$50,000 need not be paid, and it is called for. The people would not be willing to give \$40,000 to a project which proves a sure and lasting benefit to the City, and which would make a large dividend on the City and Town. I think I have been very candid in my statement, and I think I have been very candid in my statement, and I think I have been very candid in my statement.

Yes! The true dividend on the City and Town is the matter. I have given you the outlines of one way in which the "ways and means" could be provided for building the bridge. The tolls are not so high as to be a burden on the people, and the tolls are not so high as to be a burden on the people, and the tolls are not so high as to be a burden on the people.

I thank you, Mr. Editor, for the space given me in your columns and although we differ in our opinion as to the course to be pursued, I am glad to have the entire truth before the public. Yours, &c., DAVID HOLMES.

Fatal Accident on the Grand Trunk.

Two Men Killed at Trenton Station.

At about 4 o'clock this morning a terrible accident occurred at the Trenton station on the Grand Trunk Railway, by which two men, Hugh McGregor, a fireman, and Thomas Grubel, a brakeman, were instantly killed.

Our information is that as a through freight train was going up the heavy grade east of Trenton, the engine, which was a 4-4-2, was running at a high rate of speed, and the brakeman, who was standing on the engine, was struck by the wheels of the train, and was killed. The fireman, who was standing on the engine, was also struck by the wheels of the train, and was killed.

McGregor, who resides in Belleville, is a member of Belleville Lodge No. 81, I. O. O. F., and will be buried in the morning. Grubel, who resides in Trenton, is a member of the Grand Trunk Railway, and will be buried in the morning.

Further Particulars.

How the Accident Happened.

NOBODY BLAMED.

(Special to the Intelligencer, via Dominion Line.)

Trenton, Dec. 23.

This morning at 3:30 an accident happened at Trenton station resulting in the death of two men, Hugh McGregor, a fireman, and Thomas Grubel, a brakeman. Two special trains were coupled together in order to get up the grading east of the station and just as they were starting from the station the head train parted, the shock of which precipitated the brakeman from the top of a car to the track under the cars, where he was found dead. The second train then collided with the broken part of the head train, at which point McGregor was standing on the engine platform looking about to try and see what was wrong, and the force of the collision caused the tender to press up against the engine, and the engine, in consequence, was thrown overboard, and the two men were killed on the spot. The bodies were immediately recovered and taken to the Grand Trunk station, where an inquest is now being conducted by Coroner Fife, of Brighton.

McGregor's home was at Belleville, and that of Grubel at Trenton. To-day we believe to have been McGregor's wedding day. We do not know that blame is attached to any person.

Afternoon Dispatches.

LONDON, Dec. 23.—The returns of the union workhouse in east London are beginning to show extensive of wide spread poverty and distress in that part of the city. Applications for relief are so numerous that houses of accommodation is inadequate. At Shoreditch the workhouse and infirmary is full. Bethnal Green workhouse has 1,000 inmates. The Hackney there are 1,416 inmates poor. The visitation of district visitors discloses the vast amount of distress and charitable funds for their disposal utterly insufficient. This is especially the case at Poplar and Millwall, where 1,000 of dock and other laborers are out of employment. Shipyarders, Lamson, South Hackney, Shillwell and Langstone are severely feeling the acuteness of the winter.

HARTFORD, Conn., Dec. 23.—James L. Chapman, formerly cashier of the Farmers and Mechanics National Bank, Hartford, sentenced to state prison in 1877 for five years, for embezzlement, has been pardoned by President Hayes.

CINCINNATI, Dec. 23.—Archbishop Purcell who had charge of the Catholic interest in this city many years ago, announced to his congregation yesterday that he has written to the Pope asking to be relieved on account of infirmity of old age. In his remarks he alluded to financial matters and evidently convinced his hearers by making a graceful reference to his investments made through him that they were secure and would be returned in due time.

NEW YORK, Dec. 23.—Daniel O'Leary and Peter Neilligan, who are walking a city street, had completed at 11 o'clock this morning. The former 30 miles and the latter 47 miles. The difference between them was caused by O'Leary having been out of the track two hours and forty minutes, which was a very wondrously insignificant and thirty days.

LONDON, Dec. 23.—A Vienna correspondent of the Times says that according to the accounts from St. Petersburg, the Russian Government had received the mission of the Emperor, because of the increased feeling towards England and because of peaceful policy has now obtained acceptance, but other information now comes in which suggests that certain other circumstances contributed to the result.

Firstly, the rapid advance of the British in Afghanistan, and the precarious situation of the Amir promised to render the mission valueless, and it might be a source of unpleasant complication, but by agreeing to the withdrawal of the mission Russia would appear to be making a graceful concession while really taking a timely precaution. Again, the news reaching us of the internal state of Russia is of such a nature as to make intelligible the pacific tendency of its Government. Reports are full of the re-appearance of the Nihilist spectre. Whether real or imaginary, the spectre is believed in, and attempts are made to hunt it down by measures of repression.

All sorts of Nihilist demonstrations are apprehended. One is said to be planned for December 26th, the anniversary of the execution of the Emperor Nicholas in 1825. The police are busy everywhere tracking the conspirators, and within the last week a number of arrests were said to have been made. Quite a raid was made against the students who wanted to present a petition to the Emperor. It is even rumored that the Government is seriously thinking of closing the University for this year. The police in St. Petersburg are enforcing all repressive regulations in their power; among them is an interdiction of carrying arms.

The influence of the entire eastern district of the metropolis are crying out for the halcyon days of yore, and even Christmas was a heavy drizzle in the market. So severe is the distress in Hoggerton that a Committee has been formed for the relief of cases of extreme poverty, but it will be greatly crippled through want of funds.

The weather is severe throughout Great Britain, there has been a heavy snow fall here and in many parts of the Continent, and in Scotland it is especially severe, and all the railways to the north are blocked. Two London mail trains were, at last accounts, snowed up 10 or 12 miles from Aberdeen, and 7 miles from Newcastle, and traffic suspended. Snow was still falling last night, in some places it is 12 feet high. It is the heaviest snow fall in 30 years.

A telegram from Geneva, Switzerland, says that no post has arrived from Germany since last evening, and the service between Basel and St. Maurice entirely suspended. In the case of the 400 men and 400 carts were constantly occupied in clearing the streets.

A Paris dispatch states that twelve people are said to be at the gates of Metz.

More snow on the Vange than the oldest inhabitant remembers.

CHRISTMAS.

The quick revolving wheels of the solar chariot have brought us once more to the eve of the blessed anniversary of the day, which one thousand eight hundred and seventy-eight years ago gave to the world a pre-eminence of the Deity, and to mankind a Saviour and a refuge for all time to come. Once more mankind are led to reflect upon the wonderful character of the Nativity—how the shepherds of Judea, instructed by one of the myriads of the Lord, and guided by the star which He gave them as a sign, pursued their way through the night until at last they arrived at the lonely birth-place of the Saviour, where they found Him cradled securely among the bosoms of the field, with adoring angels in attendance.

The extraordinary display of God's love for fallen man in thus sending His Son to take upon himself the attributes of man, and among in His own person for the sins of mankind, the more it is reflected upon, the more it conduces to warm the heart of the human race towards their Creator. Hence it is that nearly all Christian lands the anniversary of the birth of our Saviour has been made a season of rejoicing—of charity—of peace on earth and good will to men. Sir Walter Scott, whose far-reaching genius ennobled every theme that he touched, writes of the great Christian festival in the most animated and interesting strain, and the glow of the old-time celebration in England of the festival commencing.

Heaven on more! 'Tis the wind is still;
 But let it whistle as it will,
 We'll keep our Christmas every still,
 Being too well known to require any quail.
 Times have changed and customs with them,
 But Christmas is still the same;
 The great festival of the year, which time cannot wither nor custom stale,
 And the man who does not at its annual recurrence,
 Feel the glow of charity and the impulse of a kinder feeling towards his fellow-men filling his heart to its utmost recess,
 Is indeed an object for the pity of his friends and the particular solicitude of his friends.

Thus we have as the legitimate outcome of the thoughts which arise in the hearts of men at this time, the many acts of kindness, of benevolence, and of charity from the well-to-do towards his less fortunate fellow-creatures; the gifts or presents to friends and relatives, and even the giving of a good cheer which prevails in every household, where the stern hand of want does not prevent its attainment.

The meaning and purpose of these Christmas meanings is so well understood and so happily expressed by the writer of a recent poem on the subject, that we are tempted to give it entire, satisfied that it will be read with pleasure:

"What shall we give?" I hear them ask,
 As though selection were

Daily Intelligence.

1878.

What I wish the year is doing:

When first I came in joyous spring,

On youth and beauty, strength, and joy,

We formed a hundred projects gay,

Revered and planned, but time was flying,

And winter winds swept us, sighing,

"Too late, too late!"

What I wish someone employed me leisure,

But I find the year should thus unfold:

But I find the year should thus unfold:

But I find the year should thus unfold:

But I find the year should
